

# NH PUBLIC ROADS

## Data Availability:

 State complete

Data Layer: NH PUBLIC ROADS

Primary Layer Name: ROADS\_DOT

Layer Content: ROAD NETWORK

Data Structure: VECTOR

Layer Type: LINE

Source: NH DEPARTMENT OF TRANSPORTATION

Source Scale: 1:24,000/1:25,000

Source Media: DIGITAL

Automated By: NH DEPARTMENT OF TRANSPORTATION

Coordinate Reference: NH State Plane Feet

Horizontal Datum: 1983

Tile: STATE

Status: COMPLETE

Last Revision: September, 2013

Available From: Earth Systems Research Center, UNH

## GENERAL DESCRIPTION

The NH PUBLIC ROADS dataset contains the location of state, local and selected private roads and their associated attributes, including road names. For attribute data dictionary, see the file RDI Manual.pdf

NH PUBLIC ROADS represents the most frequently distributed dataset. Additional transportation-related datasets may be available directly from NHDOT.
